| <p>(54) Title: INFORMATION REPRODUCING APPARATUS AND BROADCASTING SYSTEM</p> | | | |
| <p>(57) Abstract</p> <p>An information reproducing apparatus and method for reproducing information comprises an identification information provider for providing an identification information. A receiver receives broadcast information including broadcast identification information. The receiver includes a comparer for comparing the provided identification information with the broadcast identification information; and a sorter for sorting out received broadcast information in which the provided identification information matches the broadcast identification information. The sorted out information is then output from the apparatus.</p> | | | |
